23 September 1988

MEMORANDUM FOR: Chief, Foreign Networks Division  
Office of Communications

FROM:

  
Chief, Engineering Support Group, FBIS

25X1

SUBJECT: Request for SKYLINK Service at FBIS Vienna, Austria

1. FBIS requests your assistance in providing the FBIS field bureau in Vienna, Austria with access to the SKYLINK communications capability planned for installation at the American Embassy in Vienna.

2. The current FBIS Vienna Bureau circuit is routed via Department of State leased line to Bonn BAX where it enters the BAX/Croughton trunk. We plan to use IDD service as our backup and subsequently do not require the BAX circuit in the long term. The current 300 BPS leased line between the Bureau and the Embassy will be retained.

3. Our point of contact for this activity is ,
